2015-20 MUSTANG GT350 STYLE EMBLEM INSTALL

GRILLE

1. Remove the 8 push-in clips on the radiator cover and lift off the radiator cover.
2. Remove the 2, 10mm nuts that hold the hood latch in place (deep socket). Unplug the connector from the hood latch and move the latch to the right side out of the way. This will give you room to reach your arm behind the grille.
3. Screw the supplied bolts into the badge and slide it through the grille. Slide the washer plate on the back. Tighten down the nuts. (7mm deep socket). Loctite is recommended.
4. Re-install the hood latch and radiator cover once badge is in place.

DECKLID

1. You will need an aftermarket blank decklid for (2015-17) to begin.
2. Thoroughly clean the decklid before applying the badge. Apply in warm conditions to ensure proper adhesion.
3. Using the reverse camera as a reference point, center the badge on the decklid. You can use painters tape to mark your boundaries if needed. Then, simply stick your badge to the surface and apply pressure.
