

Door Switch Panel Fix Kit

Stop your 1994-2004 Mustang's switch panel from popping out of the door panel with this simple, effective solution from Mustang Geek! The Door Switch Panel Fix Kit includes rubber parts to fix both doors on your 1994-2004 Mustang. Two different profiles are included to accommodate all applications and situations. It's a solution to one of the most common maladies facing SN95 Mustangs! Installs in minutes. Geek to the rescue!

- Solves a common issue with 1994-2004 Mustangs
- Includes parts to fix two doors (only one kit needed per Mustang)

Video

Use your smart phone's camera app to scan the QR code to the left to watch a video detailing this product.

Step 1

Remove the door switch panel (pry down on the upper tab and pull up at the rear edge).

Step 2

Note there are two different rubber profiles included in your kit. One upper cross section is thinner than the other.

Step 3

Select the "thinner" profile first and install it over the bottom edge of the door panel slot.

Step 4

Reinstall the door switch panel and verify that the tab stays in place. If it does not, choose "thicker" profile and reinstall the door switch panel.
