

## SSM # 21-0616-AA

### 2020-2021 Roush RS3 Front Fender Canard Rubbing

**Applicable Model(s)/VINs:**

2020-2021 Roush RS3 Equipped with Magneride Suspension

**Issue Description:**

Some customers may experience rubbing of the front tires on the inside of the canard. This happens during aggressive maneuvering or harsh roads which may cause the tire to hit slightly on the front wheel canards.

**Repair Action:**

1. Remove front canard from vehicle by removing the three (3) bolts. No vehicle lift is necessary and it helps to turn the wheel to gain wheel clearance.

2. Measure on the TOP of the canard as shown, and make a cut line.

**Repair Action Cont:**

3. Trim using a cutoff wheel or suitable plastic trim tool and deburr as shown.

4. Reinstall canard on vehicle by reversing step 1
5. Repeat process for other side.
