

**Recommended Usage:** Add 1 bottle for oil capacities from 5-9 quarts. Use with every oil change to supplement conventional and synthetic oils with zinc and phosphorous (ZDDP) to prevent premature camshaft and valvetrain wear.

Compatible with any petroleum, synthetic, or blended motor oil and can be used for extended durations.

**Caution:** May cause eye and skin irritation. Avoid skin and eye contact. **First Aid: Skin Contact:** Wash thoroughly with soap and water. **Eye Contact:** Flush with water at least 15 minutes. If irritation persists, contact physician. **Ingestion:** DO NOT induce vomiting, contact physician immediately. Contains synthetic engine oil supplement.

# **ENGINE OIL SUPPLEMENT**

**Compatible With All Motor Oils  
Treats Up To 9 Quarts**

355ml - 12 Fluid Ounces

- Specifically designed for flat-tappet camshafts and essential for solid-roller and hydraulic-roller valvetrains
- Formulated with the latest anti-wear additives for extreme pressure protection
- For use in conventional motor oils lacking zinc, phosphorus (ZDDP), and anti-wear additive packages. Necessary for protection against excessive camshaft and valvetrain wear. Use with every oil change for the ultimate in protection against premature valvetrain wear
- Provides added protection during critical engine break-in process

**MADE IN THE U.S.A.**
